Parish Councils in the Hope Valley would value your opinion about a proposed online supermarket and invite you to complete the survey - using the link below. The aim of the survey is to gather an understanding of whether local people across the Hope Valley would be interested in using an online shopping service where residents can order from a variety of local shops and have them delivered to their door by a locally based delivery service.

Here is the link to the anonymous survey 'Food Shopping in the Hope Valley' : <https://forms.gle/8EAHR35qvjNNekcK7>

Thank you.
