“We need to guarantee everyone a warm home that doesn’t cost the earth.”

Easy Ways to Cut Energy Bills & Carbon

Heating is half the average energy bill. Insulate to save energy. Some energy suppliers offer free insulation to eligible households.

Did you know?

- Heating is the biggest part of a typical energy bill.
- It's better to turn off the heating when not in the house than to leave the heating on low all day.
- Switching a light on and off is better than leaving it on.
- Home heating accounts for more than a quarter of all our carbon emissions.
